July 2026

Hampshire
County Council

Coordination Newsletter – July 2026

Welcome to the July 2026 edition of the Hampshire County Council Street Works Newsletter. The purpose of this newsletter is to keep stakeholders informed about major projects and operational update. It is not intended to provide advance notice of all significant works, as this is already accessible through other platforms.

The Street Works Team

Hampshire Street Works is split by area. Please click on the map to access the contacts for the team. This map is hosted online and is maintained with the latest contact details.

The works mentioned in this newsletter have also been plotted on a map. Please click on the map to view.

If you would like to submit information for inclusion in our next newsletter, please email sw.engagement@hants.gov.uk.

Reminders

🔥 **Hot topics:** these are the subjects that generate complaints from members of the public and Councillors. 🔥

Verges: we suggest taking photographs of verges before you start work to document any existing damage. You should also take photographs once site is cleared to show the condition of grassed areas after you leave. Please ensure that any damage caused to verges/grassed areas as a result of your work is made good before you leave.

Use of 15-minute road closures: please only use at sensible times

Working hours: please ensure all contractors and operatives are aware of permit conditions. We are seeing an increase in evening and night works in residential areas in breach of permit conditions. We have seen a few night works being undertaken during the day, resulting in lengthy delays.

Environmental Health: if you are planning to work in a residential area at night for more than one night, you must alert the local EH team.

Manual Control: the purpose of manual control is to control the traffic flow. Please ensure that the operative in charge is aware of any priorities at different times of the day.

Blocked Driveways: please consider notifying residents before blocking driveways.

Diversions: please remember that the shortest route is not always the best. We have seen an increase in wholly unsuitable diversions being selected, leading to damage to the highway, incidents involving the police, and irate members of the public. When applying for a TTRO, the applicant must confirm that a risk assessment has been carried out – please ensure that this is the case for all signed alternative routes.

Bus Stops: please remember to suspend bus stops if they will not be accessible due to your works.

Gentle reminder: please be careful not to include any of the streetworks named people in the permit information that will be displayed publicly on Causeway one.network

Please note wherever possible, works should be avoided in the New Forest during the school holiday periods. In addition, under the **New Forest Tourism Restriction, works involving long-duration positive traffic management on A, B and C roads** near tourist attractions, shopping areas, caravan sites or campsites **may be restricted from Easter through to the end of September.** Please consult the Coordination Team before submitting permit applications for such works.

Major Projects:

Botley Bypass

Please see information in the link for the works on the **Botley Bypass**:

[Botley Bypass | Transport and roads | Hampshire County Council](https://one.network/?GB142877454)

<https://one.network/?GB142877454>

The webpage includes latest news; monthly drone footage showing progress and background information including a CGI visual of the completed scheme

M3 Jctn 9 DCO Interchange Closures

- <https://nationalhighways.co.uk/our-roads/south-east/m3-junction-9-improvements/>
- From Jul 31st the Northbound entry onto the M3 will close for up to 18 months
- Full Weekend closures of the interchange. No access to or from M3 via junction 9. M3 still open.

Local Government Reorganisation for Hampshire:

Government announces new councils for Hampshire and the Solent area

The Government has announced its decision on the future of local councils across Hampshire and the Solent area, creating five new unitary (all-purpose) councils to replace the current 15 councils serving the area (Hampshire County Council, 11 district and borough councils, and the unitary councils of Southampton, Portsmouth and the Isle of Wight).

Local Government Reorganisation >>

New unitary authorities for Hampshire and the Solent area

- 1 North Hampshire
- 2 Mid Hampshire
- 3 South West Hampshire
- 4 South East Hampshire
- 5 Isle of Wight

The new councils announced are:

North Hampshire:

Basingstoke, Hart and Rushmoor

Mid Hampshire:

New Forest, Test Valley, Winchester and East Hampshire

South West Hampshire:

Eastleigh and Southampton

South East Hampshire:

Portsmouth, Havant, Gosport and Fareham

Isle of Wight

This model also includes the following boundary changes:

Move the parishes of Totton and Eling, Marchwood, Hythe and Dibden, Fawley (currently under New Forest District Council) and Chilworth, Nursling, Rownhams and Valley Park (currently under Test Valley Borough Council) to the proposed South West Unitary.

Move the parishes of Newlands (currently under Winchester City Council) Clanfield, Horndean and Rowlands Castle (currently under East Hampshire District Council) to the proposed South East unitary.

These Councils are expected to be in place from April 2028, when each new one will be responsible for delivering all local services in its area.

These councils are expected to be in place from April 2028, when each new one will be responsible for delivering all local services in its area.

Next steps

For now, **nothing changes**. All services will continue to run as normal, delivered by existing councils, while detailed planning takes place for the transition.

Permit schemes / lane rental schemes are likely to need renewal to take account of the new jurisdictional areas.

You can find more details, including the timeline for the next stages, at www.hants.gov.uk/lgr. On the same web page, you can also sign up to receive updates on LGR direct to your inbox.

NCT02A Works in place in footway at time of inspection.

Lane Rental Scheme Progress

- Scheme documents added to HCC website:
<https://www.hants.gov.uk/transport/highways/utilitycompanies/lane-rental-scheme>
- LR scheme consultation comments considered and the scheme amended.
- DfT have also reviewed the scheme and their suggested changes have been included.
- Following discussions with the DfT an additional consultation will be carried out in Summer 2026.
- TS review notified in July 2025.
- Review of TS notification comments conducted alongside the network comments received from the LR consultation.
- Evidence for each USRN affected is available on request
- TS changes currently being loaded onto the NSG ahead of the second Lane Rental consultation

Permit Scheme 'Highlights'

- 2022 to 2025 report circulated previously. A summary report will be added to the HCC permit Scheme web page:
<https://www.hants.gov.uk/transport/highways/county-permit-scheme>
- Scheme is working well, but a financial review is needed:
- Finance report for the 2022-2025 shows that the scheme recovered approx. 400K more than the scheme cost to run. HCC is in the process of seeking legal advice on how to resolve this over-recovery.
- Fee recovery for the 2025-2026 is also likely to exceed costs.
- Additional staff being employed to manage volumes of permits

The infographic shows a yearly average from 2022 to 2025
