Communities  
Agency

# Whitehill & Bordon Relief Road Phase 1

RAYMOND BROWN  
CONSTRUCTION LTD

Hampshire  
County Council

## Project Partners

The new relief road for Whitehill & Bordon is being delivered by Hampshire County Council with funding from the Homes and Communities Agency.

The relief road forms part of Whitehill & Bordon's wider regeneration project, which involves Hampshire County Council, the Homes and Communities Agency, East Hampshire District Council, the Ministry of Defence, Enterprise M3 LEP and developers.

## The Scheme

This first phase of construction for the new relief road is the 1km northern section, within the former Louisburg Barracks, and the connection with the A325.

Two roundabouts are required within the site to provide access to the development areas to the north and south of the road. A further roundabout will also be constructed to connect the relief road to the A325.

## Programme of Work

- **Monday 28 September 2015:** Work on the relief road started and is due for completion during summer 2016. Until the new year, works will be confined within Louisburg Barracks. Any impact on the local area will therefore be minimal.
- **January to May 2016:** Four-way traffic signals will be in effect on the A325/B3002 whilst a new drainage system for the relief road is installed. These arrangements will ensure traffic continues to flow as smoothly as possible during this time and that the safety of the workforce and the travelling public is not compromised.
- **April to Autumn:** Construction of the junction with the A325 will take place under traffic management with works to the highway embankment and the removal of the remaining material being completed as quickly as possible.

## Project Team

- Senior Site Manager, Matthew Lonnon (RBC)
- Project Manager, John Cookson (HCC)
- Client Manager, Allen Harris (HCC)

## Working Hours

- Monday to Friday 7.30am to 6pm
- Any weekend working 7.30am and 2pm

## Raymond Brown Construction

The works are being carried out by Raymond Brown Construction, an established regional contractor based locally in Ringwood, Hampshire.

## Minimising Disturbance

We are committed to ensuring that our presence and the works we are doing on behalf of Hampshire County Council, have minimal impact on the community.

Next year, when work will be taking place in closer proximity to residential properties, vibration and noise levels will be monitored to ensure they remain within acceptable limits. Dust will be damped down and the highway kept clean by regular use of road sweepers.

## Considerate Constructors Scheme

We have registered this contract with the Considerate Constructors Scheme (CCS), which plays an important part in how we manage our relationships with local communities.

The CCS provides independent assurance that our site team is being considerate and courteous to project stakeholders and that any potential nuisances are being pro-actively mitigated and managed.

Complaints may be raised through the Considerate Constructors Scheme by emailing [complaints@ccscheme.org.uk](mailto:complaints@ccscheme.org.uk) or by calling **0800 783 1423**.

More information is available at [www.cscheme.org.uk](http://www.cscheme.org.uk).

## Getting in Touch

Questions and queries can be raised directly with Raymond Brown Construction by contacting Matthew Lonnon:

E: [matthew.lonnon@raymondbrown.co.uk](mailto:matthew.lonnon@raymondbrown.co.uk)

T: **01425 472241**

Out of hours emergency contact T: **07767 496061**

**Should you have any questions or issues you wish to raise directly with Hampshire County Council:**

- **Email:** [whitehillandbordon@hants.gov.uk](mailto:whitehillandbordon@hants.gov.uk)
- **Phone:** 0300 555 1388
- **Minicom** for hearing and speech impaired customers: 0300 555 1390
- **By post:** Strategic Transport , Economy, Transport and Environment Department, Hampshire County Council, The Castle, Winchester SO23 8UD

## Website

A project website has been set up to make information easily accessible to interested parties.

[www.whitehillandbordonreliefroad.co.uk](http://www.whitehillandbordonreliefroad.co.uk)

Visitors to the site can register to receive newsletters and any interim updates by email.

## Newsletters

Throughout the project Hampshire County Council and Raymond Brown Construction will be seeking to keep the community up-to-date with project developments by distributing a regular newsletter, like this one.

In addition to being distributed directly to residents' front doors and to local businesses, it will be displayed on public site notice boards.
